1. Use a Searchable Username

Add niche terms like “tips,” “reels,” or “guru” to your handle.

2. Write a Scroll-Stopping Bio

Use one line that explains what the follower will get, e.g., “Get viral Reels ideas daily.”

3. Choose a Niche That Works Without Your Face

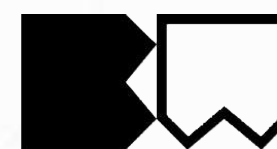

Good lazy niches: quotes, business tips, tools, study hacks, AI tutorials.

4. Pin Your Top 3 Posts

Make sure they show value: one tip, one relatable, one result.

5. Link to a Freebie

Grow your WhatsApp/email list by offering a PDF like this one. Lazy lead gen!
